Why Erasmus+? My Objectives

Erasmus+ gives students the chance to gain real work experience abroad, combining professional practice with intercultural learning. My mobility had three objectives:

01

Practical experience

Apply what I learned at KVK in a real company, with real deadlines and responsibilities.

02

Global exposure

Live and work in France, inside a multicultural team and a new business culture.

03

Career development

Build the competencies European employers look for: digital, organisational and communication skills.

About KHELA

A medium-sized French company specialised in buying, selling, repairing and refurbishing machines, electronics and technological equipment.

Buy & Sell

Trade of machines and electronic devices

Repair & Maintain

Technical services for industrial devices

Refurbish & Resell

Giving used equipment a second life

Skilled team

Many workers and technicians

My Internship Tasks

My position was mainly administrative. I supported the office in five areas:

Core focus: intensive daily use of Microsoft Word and Microsoft Excel — the backbone of every task above.

Office Work & Digital Tools

W

Microsoft Word

Letters, reports and templates formatted to professional standards, with consistent styles and layouts.

X

Microsoft Excel

Tables, inventories and records that keep company data organised, accurate and easy to update.

Document management

A structured filing system with clear naming, so information can be found quickly.

MY TYPICAL WORKFLOW

Collect

Gather information from colleagues and operations

Record

Enter and organise the data in Excel

Produce

Turn it into clear, professional documents in Word

File

Archive everything so it is easy to retrieve

Skills & Achievements

Professional documents and templates

Microsoft Excel

Structured tables and records

Data management

Accurate, well-organised information

Professional

Problem-solving

Practical solutions to daily issues

Organisation

Records kept complete and up to date

Business support

Helping daily operations run smoothly

Interpersonal

Communication

Clear exchanges with colleagues

Teamwork

Collaboration in a multicultural team

Adaptability

Adjusting to a new culture and workplace

Challenges & How I Handled Them

THE CHALLENGE

A new language and work culture

Large amounts of information

Many different daily tasks

MY RESPONSE

Listened carefully, asked questions and adapted to French workplace habits step by step.

Built clear Excel tables and a consistent filing structure to keep everything organised.

Prioritised my work and kept tidy records so nothing was missed.

My Erasmus Experience

Cultural adaptation

Adjusting to French work habits, language and everyday life.

International experience

Collaborating with colleagues from different backgrounds and cultures.

Independence

Managing daily life abroad on my own built confidence and responsibility.

Future benefits

A stronger CV and real readiness for a European career.

Key Takeaways

Real office experience

Genuine daily responsibilities inside a French company.

Strong digital skills

Confident, efficient use of Word and Excel for real business needs.

International confidence

Ready to live and work in an international environment.

Acknowledgements I sincerely thank KVK, KHELA and the Erasmus+ programme for this opportunity, and my colleagues in France for their support and trust.
